Lesson 4 Quiz Results

Important: If you missed any questions on this quiz, below you'll see explanations about why the answers you selected were incorrect. However, the explanations don't identify the correct answer, so you may retake this quiz if you're dissatisfied with your score.

Thanks,

-Your Instructor

Evaluation of your answers:

1. Which of the following is a common image type for print publishing that won't work for website pictures?

You chose: **TIFF**.

Correct!

2. If you intend to use a picture in your website, in which folder should you first put the image (or a copy of it)?

You chose: **Your website folder**.

Correct!

3. Which tag below shows the correct syntax for displaying an image named *myphoto.jpg* in a page (assuming myphoto.jpg is in the same folder as the page that contains the tag)?

You chose: ****.

Correct!

4. Which tag below would correctly display a picture named *flower.gif* at a width of 250 pixels (assuming the flower.gif picture is in the same folder as the page that contains the tag)?

You chose: ****.

Correct!

5. On your average computer screen, which measure would be closest to 1 inch?

You chose: **100 pixels**.

Correct!

Your score: 100% (out of 100%). Excellent job!
